ASSESSMENT PROCEDURES

Assessment is the process of collecting evidence and making judgements on the extent and nature of performance and other requirements, as described in a set of standards, or learning outcomes, resulting in a judgement of whether or not competency has been demonstrated.

Effective and objective assessment is the key to the successful implementation of competency standards in the workplace and in education. This is the judgement of performance and knowledge against the relevant industry competency standards.

Assessment is carried out by the comparison of a candidate's evidence of skills and knowledge, against the requirements of the Standards.

What is Competency?

Competency involves the specification of skills and knowledge and their application to a particular standard of performance required in the workplace. Aspects of work performance included in this concept involve:

- performance at an acceptable level of technical skill;
- organising one's tasks;
- responding and reacting appropriately when things go wrong; and
- transferring skills and knowledge to new situations and contexts.

Assessment Methods

The assessment methods in all units consists of a set of theory questions and a demonstration of the learners' driving skills as relevant to the requirements of the unit of competency.

Feedback

Where students are assessed as not competent they will be provided with additional feedback on their assessment outcome to assist in achieving the required performance standard on reassessment.

Reassessment

Students who are dissatisfied with their assessment outcome may apply for reassessment by contacting their trainer or assessor.

COMPLAINTS AND APPEALS

Students have access to Murcotts complaints and appeals process. The complaints and Appeals procedure ensures that fair and equitable processes are implemented for any complaints or appeals by students

Students are able to submit a formal complaint relating to any concern they may have (should they feel a person has acted inappropriately or treated someone unfairly, etc). This can be submitted to Administration or directly to the Compliance Manager. All complaints are handled with confidence and are reviewed by the Compliance Manager.

A student may also appeal a decision made in regard to an assessment outcome. Where a student feels they have been unfairly judged and assessed on a specified assessment task, they may have the assessment reviewed by submitting an appeal form.
